TAKING A NIP ON THE SLY; OR, SCENE AT A FASHIONABLE DRESSMAKER'S.

— Mrs. T. —

"What shall your dress be?" Mrs. T. "I'll take an alpacas with trimmings; what is yours, my dear?" Mrs. T. "Give me no more than plain." Dressmaker produces samples of the above goods in a liquid form, and serves them out in glass thimbles. Ladies empty thimbles, and dressmaker enters it in bill as gimp and tangles. The business is carried on quite professionally. A Rose, you know, would smell a sweet by any other name, and fashion is just as good as a rose, though you call it gingham.

The following explanation of terms may enable you to come to an understanding with your wife's dressmaker: Mottre antique, white satin, London gin; ging-ham, bourbon whisky; alpaca, Santa Croix, delaine, Jamaica rum; tartan, Scotch whisky; poplins, Irish whisky. Mixed drinks are distinguished by the style of trimmings.

THE NATIONAL FARMER is the best general farming newspaper we have yet seen. It is aptly edited and beautiful printed, and deserves success and support of the fraternity.

A SENSIBLE REPLY.—The following dispatch was received, directed to Senators Ross and Pomeroy of Kansas: "Leavenworth, Kans., May 14.—Kansas has heard the evidence, and demands the conviction of the President. Signed by D. R. Anthony, and one thousand others."

To the above, Senator Ross sent the following reply:

"Washington, May 15.—Gentlemen: I do not recognize your right to demand that I shall vote either for or against conviction. I have taken an oath to do impartial justice, according to the Constitution and laws, and trust that I shall have the courage and honesty, to vote according to the dictates of my judgment and for the highest good of my country."

TREASON.—According to the logic of several of the radical papers, the Senators who voted against the conviction of the President were guilty of treason. Here is what the Philadelphia Bulletin says about it:

The price of each one will be known, in spite of the most cunning disguise. It will be found that more than one of them has been bought with actual money, selling their miserable souls and consciences for so many dollars. There are others no less base and treacherous, who have sold themselves to their own spite, and the country is not quite prepared for what it is likely to learn very soon on this point. But whatever has been the consideration received, the treason is the same:

CHOKERS.—Parson bar-keeper Cox in his recent harangue to an audience of Radicals in S. F. said that "the principles of the Democratic party were only a small box of paper collars." We can't see the point to the joke, but we opine that the rip snorting bible banger will find out that the "paper collars" will prove to be pretty effectual "chokers" on him and his crew about the third of next November.

THE FENIANS.—The S. F. Times in speaking of the movements of the Fenians, says:

If the science of war is to attack the enemy's purse, as well as his fortifications, the Fenians are turning out most excellent strategists. For every dollar they raise to expend in meetings and brass bands, they must be forcing the Canadians to spend at least a thousand.

The nation is hungry for peace; hungry for rest from the threats and alarms springing out of the foul designs of krumblers and disappointed office-seekers.—Sae Record

Most true, Mr. Record, and such being the case, the election of the Democratic candidates for President and Vice President is certain.

DISHEARTENED.—One of the speakers at the Grant ratification meeting in S. F. aroused the enthusiasm of the Republicans in the audience by making the following statement:

My knowledge or observation of California politics does not authorize me in prophesying a victory for our party in this State.

REASONS.—A short time before the Chicago Convention met and nominated Hy U Grant, a number of the leading radical Republican papers published a list of reasons why he should not be nominated and among them were the following:

Because he has proved a failure in every capacity outside of the military.

He has followed our drunken Democratic Johnson in all his rebellious rows against Congress and our party.

Because he has insulted the Republican party by endorsing the removal of the Secretary of War, and accepting the position himself.

Because we have one hundred better men for President.

Because he is a notorious drunkard.

CHASE AND THE RADICALS.—The Republican papers with hardly an exception, are loud in their denunciation of Chief Justice Chase as well as the Radical Senators who voted against the conviction of the President, and seem anxious to read them all out of the party. Their action reminds us of the following story of a verdant youth and his sweet heart. One of his acquaintances meeting the youthful lover upon the street accosted him and commenced the conversation thus: "Why, Hiram, what is the matter with you? You look down in the mouth." "Well, Bill, I guess if you had been through what I have you'd look bad too." "What's the matter?" "You know Rebecca Scollax, don't you, Bill?" "Yes." "Well, I discarded her last night." "You did! What for?" "Well, I'll tell you; she said she wouldn't marry me, and I'd discard any gal that would treat me in that way."

PROGRESSING.—The articles of incorporation referred to recently in the Union as having been formed under the name of the Feather River and Beckworth Pass Railroad Company, have at length been filed in the Secretary of State's office. The route, as has been mentioned, is from Oroville up the North Fork of Feather river, through the county of Plumas, by the way of Beckworth Pass, to the eastern boundary of California, a distance of 145 miles; duration, fifty years; capital stock, \$8,000,000, divided into shares of \$100 each; principal place of business, Quincy, Plumas county; Directors, Amos F. Blood, Geo. P. Cornell, William F. King, I. N. Thurn, and S. F. Seabury.—Sae Union.

A rival Railroad company! Oh ho! That's the game is it? The reason for wanting to break up the O. & V. C. R. R. company by our honest Dist. Atty. and his honorable clique, is now making itself public. They want a finger in the pie! Nice thing for the county to pay the costs of a suit for the purpose of aiding this rival company. Oh no! This little arrangement was not agreed upon. The "great calf" has no interest in the matter. Of course not!

PLUMAS COUNTY AND ITS RAILROAD.—The people of Plumas county, we should suppose, are by this time heartily sick of the few marplots who have succeeded in checking work on the Oroville and Virginia City Railroad. Of the cowardly spirit that prompted the resignation of a majority of the Board of Supervisors to avoid carrying out the provisions of an Act of the Legislature. Of the "cute" conduct of the great calf they have accidentally chosen Prosecuting Attorney of their county, in leaving Quincy in the night to apply to the Attorney General of the State for a Quo Warranto against the Company, that must necessarily stop all progress of the Railroad company until it can be determined. And also, of the insane howlings of the Plumas National about the Act of the Legislature being "a damnable swindle," an elegant phrase that has appeared in every issue of that delectable county paper since the Act first reached Plumas county. Not content with declining to permit the county to aid in the construction of a railroad that must traverse nearly one hundred miles of the territory of the county, and be of incalculable advantage to her every interest, these "smarties" must make war upon the company and prevent the road from being built at all. Was ever such blind folly witnessed before? Was ever such statesmanship before at the head of a county government? Was ever such a rich mineral county, isolated from all connection with the other counties of the State, so blessed with intelligent rulers to enable it to secure railroad connections? * * *—Butte Record.

RICH.—The attempt of the Radicals to convict the Democratic Senators who voted against the conviction of the President, of the crime of perjury, is extremely rich, but as Josh Billings says: It strains a man's philosophy the worst kind of law when he gets beat.

NEW PAPER.—We have received the first number of the Santa Barbara Post, a new paper just started in the town of Santa Barbara by Boust & Ferguson. It is independent in politics and intended for a local paper devoted to the interests of Santa Barbara county. We wish it success and hope that it will be a well supported and permanent Post.

TELEGRAPHIC SUMMARY.

George C. Gorham has been elected Secretary of the U. S. Senate, vice Foreney, who was accused of stealing \$40,000 and resigned to escape an investigation.... Ex-President James Buchanan died on the 1st. He leaves an estate valued at \$300,000.... The Fenian scare throughout Canada is on the increase.... J. Ross Browne has left New York for China.... The Emperor of France is reported to be dangerously sick.... The Austrian Government is reorganizing the Imperial army.... The trial of Jeff. Davis has been postponed until November.... A Fenian Convention was held in Detroit on the 1st.... A Pendleton army, 1,000 strong, is going from Cincinnati to attend the New York Convention.... Gen. Schofield has taken possession of the Sec'y of War office.... Washburn has withdrawn his charges against Donnelly.... Coward.... The natives of Abyssinia are fighting among themselves.... Gen. Grant has hired a letter written for him, accepting the nomination for the Presidency.... Twenty four children died of scarlatina on the bark Maraca Polo, from Bremen to N. Y.... Gen. Hoeker has returned from Europe.... Harvey Beckwith has been appointed Sup't of the mint at S. F.... The steamer Princess was sunk near Lexington, Mo., on the first inst....

Excuses.—The radical papers of this State are endeavoring to explain the reason why Oregon has gone Democratic repudiated Grant and Colfax, and declared in favor of constitutional law and a white man's government. Most of them says the Reporter, attribute it to aggressions in Oregon from Price's army. If this is so, we have arrived at the conclusion that Price's army must either have numbered several hundred thousand or they are ubiquitous. According to this radical theory, Price's army carried Montana, Idaho, Pennsylvania, and California last year, and Oregon, New York and Connecticut this year. A great many men, old "Pap" Price must have had. Our opponents need not be alarmed when they hear that Price's army has carried every State in the Union in November.

An Irishman remarked of a lady who had been very kind to him, "Bedad she's a perfect gentleman."

It is expected that the Western Pacific Railroad will be finished from Oakland to Stockton in about ten months.

MEX.—The fugleman of the Nigger Baby, who, in his own estimation, is the only wise and learned editor in the State, and the only one that the Almighty provided with any brains—strange ain't it?—has been very "mum" on the printing swindle during the past two weeks. Wonder what he thinks of our proposition? Guess our wise, very wise and loyal friend put his foot into a hole—deeper than he calculated, hey? We reckon he has concluded to "drop" the subject. Well, we don't blame him, he was extremely foolish (ardon us for using such an expression about so wise a man) to ever have undertaken any defence of the Supervisors on that "my out," and by his action he has proved that he has come to that conclusion himself. By the way, when shall we write out a receipt for that \$15 which was overcharged by the "Baby" against the county on printing the proceedings of the Supervisors? If our selection of the Dist. Atty. to decide the matter, does not give perfect satisfaction, say so, and we will select some one else. Come, now don't back down on one of your own propositions, "too the mark" if you do lose your fifteen dollars. We await an answer.

GUYS AND FIXINGS.—Several years ago, about 80 rifles with sabre bayonets and other war traps were forwarded from the Adjutant General's office in Sacramento to this place for the Union Guards. It was the time we were all afraid that the "blasted" copperheads intended to capture the county and it was necessary for arms to be in the hands of the truly loyal. The company soon became demoralized, the trouble being that every one wanted to be "captain" and discharged. The arms still remain in Quincy. They must have cost the State several thousand dollars, and we would like to know what kind of a report the late Adjutant General made about them. Has he lost sight of the fact that the guns were ever forwarded to Plumas? We call the attention of the present Adjutant General, who seems to be hunting up the property of the State which was so liberally given out by Evans, to the fact.

Marriages.

At the Western Home, Marysville, June 3d, 1898, by the Rev. C. V. Anthony, Mr. CHARLES T. KATZBERG to Miss MARY L. LORINE, both of this Valley.

We welcome with pleasure the new recruit to the ranks of the Benedicts. Our friend "Charles" now realizes that Paradise was not complete until Eve blessed it with her presence. We wish the happy bridegroom and his lovely bride a prosperous and joyous journey over the thor-oughfare of life. May all those blessings which are kept in reserve for the happily mated be bestowed upon them, and may Their blessed souls to love and bliss be given. And each, too happy, ask no brighter heaven.

Births.

At La Porte, May, 1898, the wife of J. McKenna, of a son.
At American Valley, June 2d, the wife of I. B. Wheeler, of a son.

STATE NEWS SUMMARY.

Ned Buntline is delivering temperance lectures in the lower cities.... A destructive fire occurred in Vallejo on the 4th.... Seth Wood an old pioneer killed himself at Mud Springs on the 2d.... The old steamer Panama has been sold to the Mexican Government.... The S. F. mint received \$55,000,572 in gold dust from the mines in 1896, and \$53,414,058 in 1897.... A majority of the radical papers in this district have expressed a preference for C. Westmoreland for Congress. We also desire to see him nominated.... Cars will run through to Reno by the first of July.... Two or three of the S. F. local fire insurance companies intend to disincorporate.... J. A. Shotwell has been pardoned out of the State Prison.... I. N. Hoag of Yolo, demands \$50,000 for planting 1,000,000 mulberry trees.... G. Newton has been sentenced to be hanged in Lyon co on the 24th of July.... J. H. Mundell of the Gold Hill News, committed suicide at Fairfield, on the 1st.... The Statutes of Cal for the year 1897—8 have been issued from the office of the State Printer.... A test case to try the legality of taxing mining claims, will soon be taken before the Supreme Court from Nevada co.... J. McKenna was killed on the San Jose R. R. on the 4th.... A man named Phelps, while at work in a saw mill in S. F. brought his head in contact with a circular saw which cut through the bones of the skull and into the brain. The wound did not render him insensible but it is feared it will prove fatal.... Thirty five Indians were killed by a co. of soldiers near Owyhee ferry on the 2d.... Within a month there have been five cases of insanity in Nevada county.... Riley, the murderer of Sheriff Smith of Carson City, was discovered near Austin and killed himself to prevent being captured.... E. H. Dyer has sued the Alta for \$50,000 damages for libel.... A Jamaican nigger horse thief known as "Mountain Scott," was killed in Marysville by a policeman, on the 2d.... A man named Callahan was horribly mutilated by being thrown in front of a mowing machine while in motion, near Centerville, recently.... The Democrats were largely pleased over the result of the election in Oregon, and the radicals felt powerful sick. They had better send for McGinness.

FLORENCE SEWING MACHINE.

CLEAN SWEEP OF THE PREMIUMS IN 1897.

GOLD MEDAL AT AMERICAN INSTITUTE FAIR, NEW YORK;
GOLD MEDAL AT FAIR OF THE MECHANICS' ASSOCIATION OF LOWELL, MASS.;
GOLD MEDAL AT MARYLAND INSTITUTE FAIR, BALTIMORE;
FIRST PREMIUM AT NEW ENGLAND AG'L FAIR, PROVIDENCE.
AND AT THE NEW YORK STATE FAIR, BUFFALO.

THE FLORENCE WAS AWARDED A Silver Medal at the Paris Exposition. The Gold Medal was awarded there, One for Button-hole Machine, and the other to the original inventor of Sewing Machines.

Report of the Judges at the Great American Institute Fair, New York City, 1897.

The whole number of Sewing Machines on exhibition is thirteen; of these twelve are entered for competition. The article bearing the number 120 (the Florence Sewing Machine) is declared to be the best on exhibition. It must be also stated incidentally that this is better than any of its class known to the judges. (Note.—The Board of Managers determined to elevate the standard of excellence in articles on exhibition by declining to give the first premium to any article unless it was pronounced by competent judges to be of great utility, and equal or superior to any article known to them, whether on exhibition or not.) Its merits are:
First—Good material and thorough workmanship.
Second—More absolute novelty than marks the usual improvements in Sewing Machines.
Third—The ingenious arrangement for adjusting the thread, during the passage of the shuttle, and gathering up of it in the finish of the stitch.
Fourth—The Reversible Feed.
Fifth—The variety of work which can be done upon it.
We therefore decide that it receives the award of first class.

W. M. FRATT,
J. L. CADY,
L. J. KNOWLES.

The Committee on Family Sewing Machines.

At the numerous Fairs held on the Pacific coast in the last four years, have unanimously decided in favor of the Florence, this machine having taken every First Premium since the Agency has been established in California. Among the gentlemen who served as Judges we mention Messrs. Anderson, Thomas C. McHale, A. F. Blitcher and S. U. Brigham—men well known as being among the first and best mechanics in the State—establishing beyond question the superiority of the

Florence as a Family Sewing Machine.

LOCAL ITEMS.

SIXTEEN.—The Crescent Co. are only running 16 stamps at present.

BUILDING.—The new saloon of Walraven & Co. at Greenville, will be completed in a short time.

STORE.—A new store has been opened at Greenville by some gentlemen from Marysville.

NOTARY.—J. S. Ward of Susanville, has received the appointment of Notary Public for Lassen county.

Two.—The stage made but two trips during the past week. It will run regularly three times a week hereafter.

APPOINTED.—A. A. Cooper of Taylorville has been appointed a Notary Public for this county; vice P. H. Russell removed from the county.

NEW HOTEL.—Mr. Alex. Kirby is putting up a new building on the old Jim Beckworth place in Beckworth Valley, to be used as a hotel.

LETTERS.—N. K. Wright has filed an application praying that letters of Administration upon the Estate of C. Beiden, deceased, may be issued to him.

CHANGE.—It is reported that a change from steam to water power is soon to be made in one of the mills of the Indian Valley Quartz Co.

DUST.—One day last week, Turner, Rice & Co. brought to town about one thousand dollars in dust, the proceeds of their first clean up this season.

WORK.—Swan & Co. intend to commence work immediately in Rockwell's old diggings, which have for want of the requisite capital to fit up the claims, been lying idle for several years past.

C. L. K. K.—At the hour, 3.15 before midnight, the den, appear without the [?]. The council meets! Remember the penalty! Speak in whispers!

PROGRESS.—Myers of Nelsons has raised the frame for his new store and hotel, and a number of men are at work upon the building which he hopes to have ready to move into by the middle of July.

MANUFACTURING JEWELER.—Mr. A. Berg of La Porte, is prepared to manufacture, repair or clean jewelry of all kinds. Specimens, pins, rings, ear-rings, etc., manufactured to order. See his advertisement.

REXING.—The New York quartz mill, formerly known as Wescott's, has been running for some time. Mr. Perkins the Superintendent, is opening up the mine in good shape. Some of the rock in this ledge is very rich.

NOT ONE.—We understand that not a single flume or wing dam will be put in the North Fork this season. The water remains too high, and the season would be too short to justify any work of the kind being attempted.

WILL MOVE.—McBeth at Marion Flat intends removing his store house and dwelling to the lower part of the flat so that he can work out the ground upon which the buildings now stand and which is known to contain good pay.

A "BIT."—In every section of Plumas, except Indian and American Valleys, the price of a "drink" at all of the saloons has been reduced to a "bit"—that is to say, we are so informed by parties who have had an opportunity to gain positive information on the subject.

HIGHWAY ROBBERY.—One night this week three Chinamen were stopped on the road near the church in La Porte, by three highwaymen, and robbed of about \$400. One of the Chinamen was badly cut in the throat by one of the robbers and doubts as to his recovery are entertained. It was a very bold operation. The Chinamen are of the opinion that they recognized one of the robbers, but no arrests have been made.

SAWPI.—The Eagle Co. have commenced washing up their pay dirt. The New York Co. have finished cleaning up, and on Tuesday last, they sold their dust, which is worth about \$18.25 per ounce, to Messrs. Conly & Co. of La Porte, and returned to Sawpit with about \$23,000 in coin. As soon as the funds are paid off, the debts against the company cancelled and a dividend made, Sawpit will see lively times for awhile.

GREENHORN.—We are pleased to hear that Messrs. Heath & Co., after working faithfully for a year past to prospect and open up their claims, have at last struck it rich. They made their first clean up after about twenty days panning, one day last week and took out over \$1,000. They have an abundant supply of water and ground enough to last ten years. The bank is about 40 feet deep and a good prospect can be found in every pan of dirt from top to bottom. They are now satisfied that they have one of the most valuable claims in Plumas county.

15 MILE BAR AND VICINITY.—The miners in this vicinity have an abundance of water and are all without an exception doing well. The Halstead Co. made a partial clean up a short time since and took out about \$600; they will have water enough to pipe with the whole year. Hyde & Ward on 13 Mile Bar, finished cleaning up last week; they averaged good wages for all the work done. Ward & Co. will commence putting in a flume next week in the river near York's Point, below 12 Mile Bar; it will be about 600 feet long. The new bridge near Hall's ranch, will soon be completed as work upon it which was stopped on account of high water, has been renewed.

WATCH OUT.—The wise and honorable fugleman of the National is attempting to prove that the members of the Oroville and Virginia City R. R. Co. are liars, and adduces evidence of Mr. J. Ford to sustain the charge. Now to be honest with our friend, we will say to him that he must be very careful or else, instead of proving the Co. to be liars, he will prove beyond a shadow of a doubt, that he is as near a perfect dambphool as an American citizen can ever become. The R. R. bond question, so far as Plumas county and the present Company is concerned, is settled, the fugleman of the National knows that fact, and all of his silly hash about the company is published for the sole purpose of gratifying his personal spleen against certain members of the company who happen to be Democrats, and who have publicly denounced the individual referred to. In this connection, we will ask: Has the O. & V. C. R. R. Co. swindled Plumas county out of one dollar? Who have they robbed? Who have they wronged out of a farthing? What have they done that they should be denounced as thieves, swindlers, highwaymen, liars and perjurers? The members of the O. & V. C. R. R. Co. have acted towards the citizens of this county in a much more fair, honorable and liberal manner than any corporation in the State would have done. They had the law on their side and if they had so chosen they could, sooner or later, have forced the county to issue the bonds, but instead, they have publicly pledged the faith of the Company, that they will never force the county to do so, but at the same time will do all in their power to secure the building of the road, and for doing so they are denounced as swindlers and thieves. Sir, we advise you to pick the beam out of thine own eye before attempting to pick a mote out of the eye of the R. R. Co., and after doing so they reckon you will be able to see that there are honest men in this community outside the little clique of hangers-on and advisers of the Plumas National and the band of loyalists known as Freedom's Defenders.

AS USUAL.—The miners at Mt. Pleasant and Fales Hill and the water-ditch owners cannot agree upon the price of water. But few claims are being worked and nearly all of the water is running to waste, the miners in that locality have wisely come to the determination that they will not work year after year for the sole benefit of the watermen. The Mountain House District would be one of the best districts in Plumas county if the water was in the hands of men who were willing to sell it at a reasonable price and who did not want to take all the miners made during the year and curse them because they did not have more to give, for the privilege of using water. The water season is always short, but if an avalanche would sweep down the hill and carry the entire ditch away, we do not believe the miners in that section would be in any way sorry. This thing has been carried on for the past four years, and it may be sharp financial, but nevertheless, it would not surprise us to hear that the present owners "hustled" themselves out by their sharp management before many more seasons. For shame! that one of the best camps in the county should be deserted on account of the selfishness of a ditch owner, and the water allowed to run to waste rather than to sell it at a reasonable price.

DEAD.—Mr. Charles Belden, an old resident of East Branch in this county, died at San Francisco on the 5th inst. From a letter received by the last mail, we are informed that the day before his death he went on a visit to Long Mountain cemetery and did not return at night, but next morning he was found lying near the road in a helpless condition. He was brought to the city and was recognized by some of his friends who placed him in the hospital of the Sisters of Mercy, where every assistance was rendered him, but to no avail. The cause of his death was a softening of the brain. The deceased had resided on East Branch since '53, and during his long residence in the county made many warm friends who deeply deplore his untimely death. He was a native of Connecticut, where he has a mother and sister now living. He has a brother in the employ of the Union Pacific R. R. Co. as a Surveyor. Deceased was 39 years of age.

WATCHES.—While at La Porte last week, we were shown a hunting case gold watch, manufactured entirely by Mr. Fred'k Lundquest, of that place. It is a perfect beauty, and of itself, proves that Mr. L. is a scientific workman and that he understands his business. Mr. L. has just completed (after working upon it for years) a new jeweler's lathe, invented and manufactured by himself, which is pronounced by those who have a knowledge of the business, one of the most perfect pieces of machinery ever invented. Mr. L. intends taking it to Washington for the purpose of securing a patent upon it.

GETTING INTERESTING.—On Saturday last an injunction issued by order of the District Judge, was served upon E. Light and men employed at the Lebanon mill, restraining them from working or running the mill. The parties paid no attention to the injunction, but kept on running the mill and cleaning up. The matter is now growing interesting.

ARGENTINE.—Enisely & Co.'s mill has not been running for several days, the company are engaged in running an open cut to strike the main ledge discovered by Mr. Heath last fall. It will probably take a couple of weeks to finish the cut. Some of the rock from this ledge is very rich and we shall expect to hear of big clean ups when they commence crushing again.

4TH OF JULY.—We are requested to state that a ball will be given at the Plumas House on the night of the 4th of July. It is uncertain as yet whether any public celebration will be held in Quincy.

WELCOME.—Mr. Wm. H. Moore, who left Quincy about two years ago for the Atlantic States, returned on Thursday.

NEW SHOP.—A new butcher shop and meat market has been opened in town by Mr. C. Link.

ICE.—J. Tomb & Co. have commenced hauling ice from their ice houses in Grass Valley to Marysville.

DONATION.—A donation party was held at Mr. Scotts for the benefit of Rev. Mr. Anderson, on Saturday last.

ENGINE.—Messrs. Judkins & Kellogg of Round Valley, intend to put up a steam Engine to hoist rock out of their ledge in Cherokee.

CAMP MEETING.—We are informed that a regular old fashioned Methodist camp meeting will be held in Indian Valley some time next month.

BELOW.—A number of our merchants have gone below for the purpose of purchasing goods. Nearly all of them make their largest purchases of everything except groceries, in San Francisco.

GHOST.—A ghost which succeeded in scaring a number of Canadian miners nearly out of their boots, has made its appearance in Indian Valley. It has not yet been captured.

TEACHER.—The Spring term of the District School in La Porte, commenced last week. The Trustees have engaged Mr. Sanders, late of Colusa Co., as teacher.

SLEIGHING.—The stages on the Oroville and La Porte road run to the foot of the hill between La Porte and the American House, and sleighs run the balance of the route. The road will probably be open for travel with wagons within the next two weeks.

DRY GOODS.—H. Gerson keeps the largest and best selected stock of dry goods, clothing and furnishing goods that can be found in La Porte, and best of all, sells them at fair prices. Give him a call, examine his stock and learn his prices and you will be satisfied that our statement is correct.

GRANT POWDER.—We learn that several of the owners of quartz ledges in Indian and Round Valleys have been experimenting with the grant powder, and find that it is much better and cheaper for their use than the common blasting powder. It will undoubtedly come into general use.

VEGETABLES.—The first vegetables brought from the lower valleys to this place this season, came up on Tuesday last. New potatoe, onions, beets, cucumbers and beans comprised the assortment. They were rather costly, but notwithstanding that little objection, our citizens soon exhausted the supply.

LA PORTE ROAD.—Mr. Conly informs us that it is his intention to commence repairing the damages done to the La Porte and Quincy Wagon Road as soon as the snow disappears sufficiently to allow the men to work upon it to good advantage. The road is not injured near as badly as we expected it would be.

FOURTH OF JULY.—Preparations are making in almost every portion of the State for the celebration of the 4th of July, but as yet we hear of no move being made by any of our citizens to prepare for a celebration in Quincy. It is full time that something was done if we are to have a celebration.

BLOODED STOCK.—To day, (Saturday), Mr. Tom White arrived in town with a number of fast race horses. Among them is Tom Atchinson's famous horse "Bloomsberry." We learn that it is the intention of our citizens to give purses for five days races over the Quincy Course, some time during the latter part of July, if so, the programme will be published next week.

GONE EAST.—Creed Hammond, Esq., went East on the steamer of the 1st. He goes on business connected with the Oroville and Virginia City Railroad Company, and if successful in his negotiations with the Union Pacific Co., we shall not be surprised to see work commenced upon the road this year. Mr. H. will also attend the National Democratic Convention which meets in New York on the 4th of July.

HOPKIN'S.—We hear that Gardiner & Co. recently struck some very rich diggings in the hill near Hopkin's creek. Since the discovery, a number of claims have been located on the hill and a ditch will be dug to furnish the companies with water to work the claims with hydraulics. If the deposit of gravel is as extensive as at present supposed, it will prove to be of great advantage to that locality and Hopkin's will soon become as lively a mining camp as it was in '60.

BOOT AND SHOE STORE.—The only exclusive boot and shoe store in Plumas county is at La Porte, and from a personal examination we can truthfully state that a larger, better selected and more complete stock of boots and shoes cannot be found in the mountains than is kept by Mr. B. T. Pale, at the La Porte Boot and Shoe Store. He has recently received a large stock direct from San Francisco, purchased by himself. He has over 40 varieties of boots and an endless variety of ladies and children's shoes. His prices are cut down to the lowest living rates, and he does not keep any "cheap John" auction goods, what articles you purchase of him will prove to be all he represents them. Mr. P. has worked for years at the trade, and consequently knows what kinds and styles of goods are good and saleable. Any orders sent to him will be filled to the satisfaction of the parties sending. See his advertisement in another column.

OFFICERS.—We learn that Geo. Cornell was elected President, Seabury Vice Pres't, Blood, Treas., and Thora Sec'y of the new R. R. Co.
